

Express®

SAFELY FAST-CHARGE BATTERIES
ANYTIME DURING THE WORK DAY

AUTOMATIC BYPASS OF FAULTED MODULE

Continues charging process for
uninterrupted operations

UP TO 94% EFFICIENCY

For maximum performance
and energy savings

Drivers can pull up and plug in anytime, including breaks and shift changes. The smart charging system of the Express® charger automatically recognizes the status of the batteries and keeps them optimally charged and equalized. Express chargers feature innovative Active Temperature/Output Management technology to ensure batteries receive optimal charging at every plug-in. Express chargers are equipped with a Wi-iQ® battery monitoring device to provide battery voltage and capacity data and adapt to a wide range of battery capacities, making it possible to reduce the number chargers in your fleet. Express chargers are California Energy Commission (CEC) compliant and UL certified.

SMART AND FAST

Express® chargers increase productivity by quickly and safely charging fast-charge batteries anytime during the workday. They are designed exclusively for Express batteries.

	Cabinet Size	Cabinet Code	DC Max Output (Amps)					Input AC (Amps)		Max Weight (lbs)	Dimensions (W x D x H)
			@ 24V	@ 36V	@ 48V	@ 72V	@ 80V	@ 480Vac	@ 600Vac
